1. A modo de prólogo

Estas cuatro piezas se suman a otras tres ya publicadas bajo el título *Temple del Diablo, Serie 1*. Todo este conjunto es resultado de algún tiempo de trabajo con una afinación especial. El prólogo a la *Serie 1* se refiere a ello, y por ser absolutamente pertinente lo reitero bajo estas palabras.

Estas composiciones experimentaron, como tantas, la postergación que las urgencias cotidianas imponen al trabajo creativo. El estímulo y el entusiasmo de mi amigo Christopher Dorsey me insuflaron energía para terminarlas. Quiero y debo agradecer aquí su importantísima palabra de aliento.

Prólogo a la Serie 1

Los músicos populares sudamericanos han empleado muchas veces el recurso de modificar la afinación normal ó universal de la guitarra, generando nuevos "temples" (así se suelen denominar las afinaciones resultantes), con el propósito de hacer más fáciles las interpretaciones en determinadas tonalidades. Las piezas publicadas en este álbum han sido escritas utilizando uno de esos templos: quinta en SOL y sexta en RE, manteniendo el resto del encordado de acuerdo con la afinación universal. A lo largo de años escuché de manera imprecisa pero recurrente que a esta afinación se la llamaba "Temple del Diablo".

En mis intentos por hallar el origen de esta denominación, encontré muchos templos distintos englobados bajo la misma expresión, incluido el que es utilizado para estas composiciones. De modo que, lejos de hallar una respuesta categórica, me vi frente a un mundo vasto y confuso que aún reclama un estudio exhaustivo y esclarecedor (estando en el Cusco, Perú, donde la guitarra suele utilizarse templada de maneras diversas, supe que allí denominan Diablo a cualquier afinación que no sea la universal).

De lo dicho surge que no es muy riguroso vincular directamente la afinación aquí usada con la denominación "Temple del diablo". A pesar de ello decidí utilizarla como nombre para la serie, sumándome así a la folklórica costumbre de asociar ambas cosas, y renunciando, al menos por ahora, a la pretensión de encontrar el porqué.

Y finalmente, dado que las manifestaciones del folklore cubren sus orígenes con un insondable manto de imprecisión y olvido, es bastante probable que jamás llegue a saberlo.

1. By Way of Prologue

These four pieces add to another three already published under the title *Temple del Diablo, Serie 1* [Tuning of the Devil, Series 1]. This set is an outcome of some time spent working with a special tuning. The foreword to *Serie 1* makes reference to this, and I repeat it below for its absolute relevance.

These compositions experienced, as so many other ones have, the postponement that daily urgencies impose on the creative work. My friend Christopher Dorsey's stimulus and enthusiasm gave me energy to finish them. I want and must thank him here his very important words of encouragement.

Foreword to the Series 1

Popular musicians from South America have often used the resource of modifying the normal or standard tuning of the guitar, generating new "temples" (as the resultant tunings are called), with the purpose of making the performance easier in certain keys. The pieces published in this album have been written using one of those temples (alternate tunings): fifth in G and sixth in D, keeping the remaining strings in accordance with the standard tuning. Over the years I have heard in a vague but recurrent way that this tuning is called "Temple del Diablo" [The Devil's Tuning].

In my attempts to find out the source of this designation, I found many different tunings covered by the same expression, including the one that is used for these compositions. So, far from finding a categorical answer, I found myself in front of a vast and confused world that still requires a thorough and enlightening study. (While recently in Cuzco, Peru, where the guitar is tuned in very different ways, I learned that any tuning that is not the universal one is called Devil.)

From the above it appears that to link directly the tuning used here with the name "Temple of the Devil" is not very rigorous. Despite this, I decided to use it as a name for the series, thus joining the folk custom of associating both, and resigning, at least for now, the claim to find out why.

And finally, since the manifestations of folklore cover their sources with an unfathomable cloak of vagueness and forgetfulness, it is quite likely that the true story will never be known.

2. Acerca de las obras

Coral

Esta breve pieza es, simplemente, el resultado del juego entre una nota pedal en el bajo y una sucesión de acordes a tres voces. Las armonías resultantes configuran un mundo sonoro más bien "oscuro", si es que pueden aplicarse imágenes visuales a la descripción del sonido.

Machetazo (a Juan Falú)

Cuando el hombre que habita en los montes necesita abrir camino, toma su machete y comienza a golpear. Entonces, allí donde sólo había espesura, empieza a vislumbrarse un sendero que ese hombre transitará mientras lo construye y lo descubre a la vez. Luego otros lo seguirán, consolidando y modificando esa nueva vía; cada uno le irá dejando la marca de su pie, más ó menos profunda. Juan Falú dio un fuerte machetazo que abrió camino a la renovación de la música argentina para guitarra.

Andar y andar (a Darío Montiel)

Algunos hombres eligen el destino de viajar, lo hacen por convicción, por propia decisión. Otros, aún anhelando hallar su lugar y echar raíces, deben moverse de un lado para otro. Nómadas involuntarios, comienzan en cada lugar a desarrollar un universo de relaciones y afectos que deben abandonar a medio construir para recomenzar en otra latitud. Darío Montiel es uno de ellos. Nos conocimos en su breve estadía en Rosario, y nos hicimos amigos. Ahora anda por acá y por allá, soñando con el día del ansiado arraigo.

Señor Guitarra (a Eduardo Falú)

Las expresiones musicales del pueblo comienzan a trascender su ámbito regional y folklórico cuando un artista popular las toma y las lleva, en juglaresco peregrinaje, a otras regiones (ciudades, provincias, países). Muchas veces estos voceros de la cultura popular acarrean su tesoro casi intacto, ofreciéndolo así a quienes lo quieran escuchar. Pero cada tanto surge un artista diferente, dueño de gran sensibilidad y de un horizonte creativo más lejano. Cuando esto sucede la música alcanza nuevas alturas y comienza, desde la raíz nativa, a universalizarse. Esto es lo que ha sucedido a partir del trabajo de Eduardo Falú, cuyas interpretaciones y composiciones, sumadas a su señorial presencia, han colocado en un lugar de gran prestigio a la guitarra argentina.

2. About the Works

Coral

This brief piece is simply the result of the game between a repeated bass note and a succession of chords in three voices. The resulting harmonies form a rather "dark," sonorous world, that is if visual imagery can be applied to the description of sound.

Machetazo (to Juan Falú)

When the man who lives in the woods needs to open a path, he takes his machete and begins to strike. Then, where there was once only thickness, one may catch a glimpse of a path that this man will travel while he makes and discovers it simultaneously. Later, others will follow it, consolidating and modifying this new route; each one will leave the mark of his foot, more or less deep. Juan Falú gave a strong blow with a machete that opened the way for the renovation of Argentine music for guitar.

Andar y andar (to Darío Montiel)

Some men choose the destiny of traveling; they do it for conviction, by their own decision. Others, longing to find their place and to take root, must move from one place to another. Involuntary nomads, they begin to develop a universe of relationships and attachments in every place but must abandon them when they are half built, to restart in another latitude. Darío Montiel is one of them. We met each other in his brief stay in Rosario and became friends. Now he walks from here to there, dreaming of the day to take root, which has been so longed for.

Señor Guitarra (to Eduardo Falú)

Musical expressions of the people begin to transcend their regional area when a popular artist takes and carries them, in minstrel peregrination, to other regions (cities, provinces, countries). Many times these spokesmen of the popular culture carry their treasure almost untouched, offering it this way to those who are inclined to listen to it. But from time to time a different artist arises, owner of a great sensibility and a more distant creative horizon. When this happens, the music reaches new heights and begins, from the native root, to become universal. This is what has happened with Eduardo Falú's work, whose interpretations and compositions have added to his noble presence, placing the Argentine guitar in a place of great prestige.

3. El arrastre

Ante la ausencia de consenso general sobre el modo de escribir e interpretar los traslados de dedos sobre una misma cuerda, explico aquí mi personal criterio. Estos desplazamientos pueden ser sonoros (audibles) ó no. Cuando son audibles los llamo *Arrastres, Glissandos ó Portamentos*, palabras que para mí designan lo mismo: ***traslado de un dedo de la mano izquierda sobre una misma cuerda, que se realiza sin quitar presión, por lo cual se escucha el ruido del deslizamiento.***

El arrastre (utilizaré preferentemente esta palabra) puede ó no formar parte de un ligado, según se ataque con la mano derecha la segunda nota ó no.

Cuando dos notas consecutivas se deban tocar sobre una misma cuerda y con el mismo dedo de la mano izquierda, pero sin que se escuche el ruido del traslado a la nueva posición, simplemente se mostrarán ambas notas con la digitación correspondiente, como ocurre en este primer ejemplo (las notas DO SOSTENIDO y RE del primer tiempo deben tocarse con el dedo 2 sobre la tercera cuerda, sin hacer ruido).

Machetazo
compás 10 / m. 10
(p. 6)

8 (5)=G
6=D

En este segundo ejemplo las notas SI BEMOL y SOL deben tocarse sobre la segunda cuerda con dedo 4. Aquí se ha colocado una línea para indicar arrastre, por lo cual debe escucharse el ruido del traslado. Pero el SOL debe atacarse con la mano derecha.

Andar y andar
compás 26 / m. 26
(p. 9)

8 (5)=G
6=D

En este tercer ejemplo las dos últimas notas del compás (DO y RE) deben tocarse sobre la quinta cuerda con dedo 3. Se ha colocado una línea que indica arrastre y un arco que indica ligado, por lo tanto debe escucharse el ruido del desplazamiento, y el RE no debe atacarse con la mano derecha. Es un caso de ligado producido por efecto del glissando.

Andar y andar
compás 7 / m. 7
(p. 8)

8 (5)=G

3. The Arrastre

Since there is no general consensus regarding the way of writing and performing the movements of fingers on the same string, I explain here my personal criteria. These displacements can be audible or not. When they are audible, I call them *Arrastres, Glissandos, or Portamentos*, words that for me mean the same: ***displacement of a left hand finger on the same string that is made without releasing the finger pressure, for which the noise of the slide is heard.***

The arrastre (the term which I prefer) can be part of a slur or not, depending on if the second note is plucked with the right hand or not.

When two consecutive notes must be played on the same string, with the same left hand finger, and without making noise during the displacement to the new position, the two notes will simply be shown with the corresponding fingering, like in this first example (the notes C SHARP and D of the first beat must be played with finger 2 on the third string, without

In this second example, the notes B FLAT and G must be played on the second string with finger 4. Here a line has been added to indicate arrastre, so that the noise of the slide is heard. But the G note must be attacked with the right hand.

In this third example, the two last notes of the measure (C and D) must be played on the fifth string with finger 3. A line indicating arrastre and a curved line indicating slur have been added, so the displacement must be done making the noise, and the D note must not be attacked with the right hand. It is a case of slur produced as a consequence of the glissando.

<img alt="Sheet music for Andar y andar by Marcelo Coronel. The score consists of six staves of music for a single player. The first staff starts with a treble clef, a key signature of one flat, and a 3/4 time signature. It includes dynamic markings like p (pianissimo) and p. (pianississimo). The second staff begins with a 4/4 time signature. The third staff starts with a 7/8 time signature. The fourth staff begins with a 10/8 time signature. The fifth staff begins with a 13/8 time signature. The sixth staff begins with a 16/8 time signature. Various musical techniques are indicated, such as 'vibrato' and fingerings (e.g., 1, 2, 3, 4, 5, 6). Pedal points are marked with dots below the staff.
